NEXCONEC® 0.5U 24 ports unloaded keystone patch panel is the special designed patch panel for use in high density network deployment, allows flexibility for the users during installations. It gives you the benefits of only using ports required by installing the desired number of jacks into the frame.

With the silkscreen printed port identification number which help the end user to recognize the ports while/after installation in the rack. When mounted with NEXCONEC unshielded /shielded keystone jacks for Cat 5E, Cat 6 and Cat 6A, your completed panel will conform to **ANSI/TIA/EIA 568A-B.2.2001**, **ISO/IEC11801:2002** and **EN50173-2** standards.

This unloaded keystone jack patch panel comes with cable ties, cage nuts and rear cable management bar as standard.
